

## Environment Policy

Protection of environment is of prime concern and a core business value at Akuland Group Limited (AGL). With a leading role in providing competitive goods and services in the materials, energy value chains and infrastructure, AGL is conscious of its responsibility towards the needs of the communities in which it operates by creating, maintaining and ensuring a safe and clean environment for sustainable development. In particular, AGL is committed to:

- 🐎 Comply with all applicable laws, regulations and conditions granted in environmental and forest clearances, as well as take any additional measures considered necessary to go beyond compliance.
- 🐎 Implement an environmental compliance management process to capture deviations and report the violations observed by the authorities to the HSE committee of Directors.
- 🐎 Follow an international environmental management system, governance process with clearly defined responsibilities in order to achieve continual improvement and communicate environmental performance to the stakeholders.
- 🐎 Design new facilities and conduct operations with preventive approach and industry best practices to avoid adverse impacts to the human health and the environment.
- 🐎 Conserve natural resources by their responsible and efficient use in all our operations.
- 🐎 Take appropriate measures to prevent environmental incidences and maximize recycle to reduce wastes, discharges and emissions.
- 🐎 Promote tree plantation, green surrounding and protection of biodiversity at our locations to be in harmony with nature.
- 🐎 Ensure appropriate training and awareness on environmental systems, procedures, best practices and on shared responsibility towards environmental protection among employees, contractors, suppliers and customers.
- 🐎 Regularly review and report environmental performance to stakeholders.
- 🐎 Strive to minimize carbon footprint and mitigate climate change impacts.
